

**LOCAL PARTICIPATION IN A REGIONAL SCIP IMPLEMENTATION COUNCIL  
REQUIRED FOR FUTURE GRANT OPPORTUNITIES**

The Interoperability Council has determined that pre-planning for communications interoperability is essential to public safety. The Council recommends that local agency participation in an SCIP Implementation Council, as confirmed by the regional committee, be a requirement for opportunities tied to communications interoperability starting January 31, 2010.

The State Interoperability Council was established as the coordinating body for the Wisconsin Interoperability Initiative under Wis. Stat. §16.9645.
